Good Afternoon Alice,

Tierra revised the Phase I reports based on the CDM comments which were received on June 9th. We created an additional column for our responses to EPA comments, as there were some comments which required further explanation. Please see attached for *20160623_RTC_Revised_CS0-SWO_Phase I-Documents_Tierra-Final*.

In addition, attached is the MEDD for SDG PR146 which was revised per EPA comments, and sent along with the April 1st Revision 1 submittal.

Tierra will be submitting RLSO and clean copies of Revision 2 of the DQUAR and Phase I Recommendation Report under a separate email.

Please let me know if you have any questions.

Thanks

I thought I had forwarded this to you, but I don't seem to have any record of it.

Sorry for the delay but there seems to be just a few more minor comments on your Phase I documents that need to be addressed. Please let me know if we should have a call to resolve.

Also, I thought we had agreed that you would send me a revised QAPP reflecting Bridget McKenna's suggested sampling method for Phase 2, but let me know if that's not what you had understood. I believe that is the next step for this effort.
